Sarah joined CREG in March 2013 as a Broker's Assistant to provide research and brokerage support while learning the Colorado market. She quickly established herself as a valuable asset to the CREG team.

Sarah's involvement in supporting the Brokers at CREG has allowed her to gain in-depth market knowledge through research and special projects for clients. Although she is fairly new to the industry, her problem-solving abilities combined with her creative approach gives fresh eyes and new ideas to all the client projects she is involved with.

Her daily responsibilities include writing contracts, negotiating LOI's, coordinating signage requests, cold calling, researching ownerships and tax laws, and working closely with municipalities and local governments. She has organized multiple tours for retailers such as Denny's, Caribou Coffee, Einstein Bagel Bros, and Qdoba. Sarah recently finished a project with the City of Aurora where she conducted research and assisted the city on the purchase of a building. She now has great experience in the leasing realm of things as well, preparing prospect lists, writing reports to owners, and conducting comparable research for over a dozen shopping centers.

Sarah holds a BBA in Finance from Southern Methodist University and an MBA in International Marketing from University of Denver. As a Colorado native and Denver sports enthusiast, Sarah enjoys cheering on all the Denver sports teams, running, playing golf, and traveling.

"I've worked with Sarah on many projects. I can say with great confidence that her thorough research coupled with her creative approach and market knowledge has produced results that have exceeded my expectations. This includes her

work on organizing site tours and packages, as well as with providing support throughout the entire LOI and lease process. She provides great value and I will continue to work with her in the future."

- Susan Flesher, Director of Real Estate at Einstein Noah Restaurant Group
